

Biography

DAVID WILLIAMS

Army Senior Fellow
Deputy Under Secretary of the Army

David was selected for the Army Senior Fellows Program in 2007. As an Army Senior Fellow, he assumed the position as the Executive for Strategic Development for the Federal Energy Management Program for the Department of Energy where he was responsible for creating a new vision for how the DOE FEMP will do energy management business with their federal customers.

Before assuming his role as an Army Senior Fellow, Mr. Williams successfully led several Army-wide programs in the Utilities and Energy office of the Assistant Chief of Staff for Installation Management. As the Program Manager for the Army's Utilities Privatization Program, Mr. Williams privatized, when economical, 121 total electric, natural gas, water, and wastewater distribution systems throughout the Army. He also served as the Energy Savings Performance Contracting and Utility Energy Services Contracts program manager, providing guidance on the use of these contracting methodologies to reduce, conserve, and eliminate energy waste. Prior to that assignment, he served as a senior engineer for the Military District of Washington.
